

Checklist: 10 things to consider when choosing a data centre or colocation solution

	DigiPlex	Other provider/solution
High reliability	<input checked="" type="checkbox"/> All our facilities are located, designed and managed for best possible reliability, and are fully compliant with ISO standards 9001, 14001, 27001 and 45001 ¹¹ .	<input type="checkbox"/>
Ability to release investment budget for innovation	<input checked="" type="checkbox"/> By migrating your in-house IT loads to us, you should be able to shut down in-house operations and free up investment capital.	<input type="checkbox"/>
Predictable operating costs	<input checked="" type="checkbox"/> We always offer a fixed monthly fee with several options for additional services.	<input type="checkbox"/>
The level of certified renewable electricity used	<input checked="" type="checkbox"/> 100%	<input type="checkbox"/>
High energy efficiency	<input checked="" type="checkbox"/> All our facilities operate at competitive PUE levels, with the newer ones as low as 1.2	<input type="checkbox"/>
Effective heat recovery	<input checked="" type="checkbox"/> We are actively working on or planning for heat recovery at several of our facilities.	<input type="checkbox"/>
High level of physical security	<input checked="" type="checkbox"/> We take security very seriously and offer leading security solutions to protect your data, such as dual perimeter fencing, cartraps, mantraps and strict access routines with biometric and manual verification.	<input type="checkbox"/>
Proximity to end-users	<input checked="" type="checkbox"/> All our facilities are located in the city or urban areas of Oslo, Copenhagen and Stockholm.	<input type="checkbox"/>
Proper connectivity	<input checked="" type="checkbox"/> We are connected to the most requested carriers across the Nordics. We offer full carrier neutrality and welcome any other carrier of choice.	<input type="checkbox"/>
A relevant data centre ecosystem	<input checked="" type="checkbox"/> Our colocation facilities are home to many of the region's most renowned enterprises and host the most important cloud and content providers, including the first AWS direct connect in Norway. Our Nordic Connect Platform provides direct access to a unique Nordic data centre ecosystem.	<input type="checkbox"/>
